

McMurphy Farms
Alva, Oklahoma

2010 Bull & Heifer Offering

McMurphy Farms is a family owned and operated business. Randy & Paula McMurphy started McMurphy Farms in the late 70's. The farm began as a commercial cow/calf and stocker operation utilizing wheat pasture and native grass as a primary feed source. The farm has continued to raise wheat and hay for the sustainability of the cattle operation. Like many ranchers and farmers it takes a collaborative effort of all family members. Randy and Paula have two boys, Cody and Casey, who were raised on the farm and grew up showing and judging livestock as well as being a part of the production operation. Cody and his wife Megan and daughter Avery; and Casey and his wife Tracy all work together in the operation.

In 2002 we were ready to expand the herd from strictly a commercial Angus operation to a purebred Black Angus operation. We started building our foundation herd from J&J Cattle Company, Penner Angus Ranch and Oklahoma State University. The building did not stop and by the beginning of 2003 our family decided to diversify from only Black Angus and incorporate Red Angus into our Registered and Commercial Operation. Our foundation Red Angus females have been derived from Lonker Red Angus, James Red Angus, Wallace Cattle Co. and Oates Land and Cattle.

Our greatest joy is working with livestock and people in the agricultural industry. We understand that it is as much of a people business as it is a cattle business. If you would like more information on our livestock please feel free to give us a call or stop by Alva, Enid or Stillwater, Oklahoma anytime. We'll be glad to show you around.

Sincerely,

The McMurphy Family

The Bull Offering

We were happy to be able to send Sylvester Bull Development our top 33 potential herd sires from our spring 2009 calf crop. All of the bulls are **PUREBRED** and are already registered. Inside you will find pedigrees, birthdates, and registration information on all of the bulls being developed.

28 Red Angus & 5 Black Angus

The bulls being developed at Sylvester Bull Development are all **FOR SALE PRIVATE TREATY** on a first come, first serve basis. Give us a call with any questions or to come look at the rest of our cattle. **We also have a select group of registered heifers for sale. You can find information on page 12.** We would like to thank Andrew and Brian for the great work they do with our stock.

MF New Logic 7383

Semen Available - \$20/unit

New Logic is an OSF bull out of an ET brother to the 2002 Reserve National Champion bull WCC New Design and a genetically powerful King John cow. This mating has culminated into a performance oriented, yet type changing herd sire. His first years service has deemed him a logical AI sire. He was pasture exposed to only a few cows, but his progeny have spoke for themselves in a huge way.

He stamps his progeny with big, square hips and good feet and legs, but needs to be bred to cows with plenty of depth of rib. It is hard to find Red Angus with these features and combine it with phenomenal production traits. His calves will perform with any other sire as he ranks in the top 1% for weaning and the top 2% for yearling. He is different than any bull in the catalogs, but if you don't want to blend in maybe its time you get some "New Logic" in your breeding program. Call today for semen! \$20/unit

Meado-West Upper Cut 113

Semen Available - \$15/unit

Here is another outcross that will provide you with calving ease without the sacrifice of look and appropriate muscle shape. Upper cut was produced in the impressive Meado-West cow herd and sold at the Iowa Beef Expo in 2000 to Steve Bonham and resided in Southern Oklahoma as a club calf sire until we purchased him in 2005.

Since his inclusion into our herd we have seen him produce superior female offspring that are extremely attractive and still have some substance to them without being too coarse. His EPDs are out of date and lack accuracy, but he is a true heifer bull and not a performance driven bull. However, it is difficult to find this combination and there is no doubt in my mind that you will be proud to show off his progeny. \$15/unit
